Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/551,232	Applicant(s) MASUNAGA, MITSUO	
	Examiner HONGMIN FAN	Art Unit 2612	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Objections

Claims 5-6 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim *cannot depend from any other multiple dependent claim*. See MPEP § 608.01(n). Accordingly, the claims 4-5 are not been further treated on the merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 3-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Monroe (US Pub. 2003/0061344).

As to claim 1, referring to Fig. 5, Monroe disclosed a security and surveillance system having the claimed limitations, comprising a network hub 140 (i.e. connection processing means) for connecting appliance processor to be monitored in order to acquire monitoring data, centralized and distributed remote monitoring stations have access to all of the surveillance data from various remote locations via the network or the WAN (¶0024, line 22-24), a network interface 135 (i.e. signal converting means) for

converting between transmission signal to the appliance processor and transmission signal to the network hub; since network interface resides at/in appliance processor, the signal between the appliance process and the network interface is short-distance, and the signal transmission between the network interface and the network hub is much longer, or long-distance. Still referring to Fig. 4, the network hub in addition communicates with printer 145 and PCs 150, 155 (i.e. different types of equipment).

As to claim 3, clearly, the network hub provides isolation between the network interface and the centralized remote monitoring station (i.e. LAN/WAN Network).

As to claim 4, clearly, the network interface provides isolation between the appliance processor and the network hub.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hongmin Fan whose telephone number is 571-272-2784. The examiner can normally be reached on Monday - Friday, 8:00 am - 4:30 pm.
